Innovation

Cost-Effective, Environmentally Friendly, High Performance Lignin Based Polyurethane Resin for Automotive Plastics

Thermal Imaging for Improved Process Control and Cost Reduction of Plastic Injection Molding

Smart, Tunable, High Performance Antennas for Vehicle Cell Phone Reception and reduced power consumption.

Innovation Network of Universities, Companies, Researchers Entrepreneurs and Talent to Better Connect, Collaborate, Co-research and Co-innovate for Faster, Cost-Reduced Projects

Omnidirectional, RF Navigated, Autonomous Guided Vehicles for Manufacturing and Warehousing Systems
