

# Student Engineer Day

## Wednesday, March 25

### *Students and Engineers Wanted*

SAE Detroit Section's annual Student Engineer Day gives students the opportunity to spend a day on the job with a practicing engineer in the student's field of choice. This event provides the student with insight into the engineering field and provides companies with the insight into potential engineering talent. This event is "broad in scope" yet allows for individualization by placing students with engineers who have similar career interests.

Students and engineers are encouraged to attend the SAE Detroit Section 2015 Jeep® Renegade Vehicle Event that evening at the San Marino Club in Troy. The program will be presented by lead engineers involved in the production of the new Renegade and will include dinner as well as a networking/social hour.

Visit the student section at [www.sae-detroit.org](http://www.sae-detroit.org) for registration form.

Questions, contact Roxanne Loeffler at [rloeffler@sae-detroit.org](mailto:rloeffler@sae-detroit.org) or (248) 324-4445 ext. 3.
