

# Student Engineer Day

## Tuesday, March 7, 2017

Student Engineer Day is organized by SAE Detroit Section to provide students the opportunity to spend a day in the “real world” with a practicing engineer in the student’s field of choice. This event provides the students with insight into the engineering field and provides companies with insight into potential engineering talent.

It is very important to the success of this program that students realize the importance of being punctual, courteous, and enthusiastic.

**Prior to completing the registration form, please read the following:**

- **Collegiate participants must be an SAE student member and provide member number.** For information on membership, contact SAE International at 1-877-606-7323 or visit [www.sae.org](http://www.sae.org)
- You must be 18 years or older and a U.S. Citizen
- **Registration deadline is Wednesday, February 15, 2017**
- You will be notified one week prior to the event with respect to company placement along with your engineer's name, email, address, and phone number. For security purposes, you may need a driver’s license or photo identification to enter the facility
- It is **your** responsibility to contact the engineer immediately upon receipt of the information to confirm your participation. Talk to your engineer about proper attire, hours you will spend together, directions to the facility, and lunch arrangements
- Compliments of the Lewis E. Fleuelling Student Fund, you and your engineer are invited to attend the SAE Detroit Section Vehicle Event featuring the Chevrolet Bolt EV that evening at the San Marino Club in Troy from 5:30-8:30 p.m. To reserve tickets, email [roxanne.loeffler@sae-detroit.org](mailto:roxanne.loeffler@sae-detroit.org) or call (248) 324-4445 ext. 3 by **Wednesday, February 15, 2017**. Seating is limited.
- If you are unable to participate last minute due to a situation beyond your control, you **MUST** notify the engineer and [roxanne.loeffler@sae-detroit.org](mailto:roxanne.loeffler@sae-detroit.org) at the SAE Detroit Section office. If possible, please find a replacement as the engineer often blocks off the day and arranges for other colleagues to spend time with you. Students that do not notify the engineer will not be invited to future Student Engineer Day activities.

For questions, email [roxanne.loeffler@sae-detroit.org](mailto:roxanne.loeffler@sae-detroit.org) or call (248) 324-4445 ext. 3.

Visit [www.sae-detroit.org](http://www.sae-detroit.org) for other SAE Detroit Section student events.
