

Student Engineer Day Wednesday, March 7, 2018

ENGINEERS NEEDED!

SAE Detroit Section's annual Student Engineer Day will take place on Wednesday, March 7, 2018. This is a great opportunity for student engineers to spend a day in the "real world" with a practicing engineer in the student's field of choice. Although this annual event is a great experience for the student engineer, it can also be a meaningful occasion for the professional to mentor a future engineer.

Compliments of the Lewis E. Fleuelling Student Fund, you and your student(s) are invited to attend the SAE Detroit Section Vehicle Event featuring the New Nissan LEAF Vehicle Event at Burton Manor in Livonia that evening from 5:30-8:30 p.m. To reserve tickets, contact [Roxanne Loeffler](mailto:roxanne.loeffler@sae-detroit.org) or call (248) 324-4445 ext. 3 by **Wednesday, February 14, 2018**. Seating is limited.

Registration forms are due by **Wednesday, February 14, 2018**. Confirmations of student/engineer placement will be emailed one week prior to the event.

Recommendations for the day:

- Start with a brief tour of your facility and introductions, including upper and senior management
- Provide a broad spectrum of technical exposure and include hands-on opportunities
- During lunch, include technical colleagues from non-scheduled areas when practical and/or representatives from interfacing disciplines (i.e. purchasing, accounting, marketing)
- Introduce as many aspects of your on-site technical activities as possible. Include activities involving components, test equipment, prototypes, design concepts, etc. whenever possible
- Take photos of the student's visit - a memento for you and the student
- Attend the New Nissan LEAF Vehicle Event at Burton Manor that evening in Livonia from 5:30-8:30 p.m.

If you have any questions, please email roxanne.loeffler@sae-detroit.org or call (248) 324-4445 ext. 3.
