Various locations

Participants are also invited to the Ford Ranger Vehicle Event that evening at Burton Manor in Livonia from 5:30-8:30 p.m.

Deadline Extended!

Register by February 28

STUDENT ENGINEER DAY

Students and Engineers Wanted

Sign up today! SAE Detroit Section's annual Student Engineer Day gives students the opportunity to spend a day on the job with a practicing engineer in the student's field of choice. This event provides the student with insight into the engineering field and provides companies with potential engineering talent. This event is "broad in scope" yet allows for individualization by placing students with engineers who have similar career interests.

Students and engineers are encouraged to attend the SAE Detroit Section Ford Ranger Vehicle Event that evening at Burton Manor in Livonia from 5:30-8:30 p.m. Tickets are complimentary for Student Engineer Day participants and must be reserved by Monday, February 28. The event will include dinner as well as a networking social hour.

Note: Open to SAE student members only.

For more information, contact Roxanne Loeffler at roxanne.loeffler@sae-detroit.org or call (248) 324-4445 ext. 3.
