## MUNRO & ASSOCIATES TOUR

Join us for a tour of Munro & Associates' competitive product benchmarking and teardown facilities. At Munro, products are analyzed for total accounted cost reduction and quality improvements.

The tour of the Munro Benchmarking Investigation, Innovation & Implementation Center will provide an in-depth review of advanced Electric Vehicle Technologies related to electric motors, inverter converters, and batteries.

Attendees will obtain hands-on access to some of the most innovative vehicle components on the road today such as the Tesla Model 3, Audi e-tron, and all-new Nissan Leaf.

Munro & Associates has a long history in the automotive industry, working on pivotal new launches and redesigns for most of the world's OEM's as well as a vast global array of Tier 1 and Tier 2 suppliers. As such, innovation and paradigm shift has been a consistent output for several decades.

**Important Note:** Tour is limited to SAE members and their guests. Registration will close on March 23. No onsite registrations or refunds after March 18. Continental breakfast will be provided.
