

Andreas Mai
Senior Advisor BCG, Angel Investor, and
Thought Leader Digital Innovation & Transportation
Boston Consulting Group

Andreas Mai is a Senior Advisor in the Automotive and Mobility practice of the Boston Consulting Group (BCG). As thought leader in digital innovation and the future of people and goods transportation he is frequently invited to speak at conferences worldwide. His latest works include [“Driving Disruptive Innovation in the Age of Digitization”](#) in the book [“Digital or Dead”](#) and [“A \\$5 Trillion Ticket: Funding the Future of Transportation”](#) at TEDx.

Prior to joining BCG, Andreas served as EVP Market Development, Digital and Innovation at Keolis, where he was responsible for delivering new mobility services to public agencies and communities and his team launched the first autonomous shuttle services in North America.

Before Keolis, Andreas has founded ecomo, a technology startup that partners with innovators to transform transportation and develops an application to make mobility more affordable for families and society.

Prior to that, Andreas built and led Cisco’s connected vehicle business and worked with global vehicle manufacturers and suppliers, insurers and mobile service providers to co-create digital innovations and disruptive businesses.

As consultant with Roland Berger and PRTM (PWC), Andreas has advised senior executives and private equity investors in the automotive, aerospace and industrial goods industries.

Andreas has served on the boards of Octo Telematics, Covisint, and Cohda Wireless, as well as on the Connected Vehicle Trade Association, MaaS America and multiple task forces of the World Economic Forum.

Andreas earned a Diplom-Kaufmann (BA) in European Business from studies at the universities of Osnabrück, Germany, Buckinghamshire, United Kingdom and Deusto, Spain.
