Emma Munro, Michigan State University

## Influencer Panel

Christina Roki, Automotive Content  
& Culture Creator  
Riley Schlick-Trask, Owner, Riley's  
Rebuilds

## The **Girls Learning Engineering and Mentoring (GLEAM)**

Workshop is designed for high school students to promote gender diversity and inclusion, focusing on networking and mentoring across the topics of science, technology, engineering, and math (STEM) professions.

The workshop aims to engage, educate, and empower students on the facts and issues regarding gender diversity in STEM, and provide an opportunity to learn, ask questions, and network.

### Who can participate?

All high school students and their parents or guardians. The workshop is particularly geared towards girls who are considering majors in engineering or technology fields.

### Who are the mentors?

Professionals in the automotive industry and collegiate students majoring in engineering.

Join us for this fun free workshop to ask questions and meet new people involved in engineering!

**Important Note:** Pre-registration is required by March 3.  
Continental breakfast will be provided during registration.
