

Jessica Swan

SAE Relationship Manager
General Motors

Jessica Swan, as General Motors' SAE Relationship Manager, oversees all General Motor programs with SAE International to maximize the value of both organizations. Prior to this role, Jessica spent 15-years in embedded controls development and release. She has worked in transmission software, engine controller hardware, autonomous propulsion, and managed embedded vehicle controls on many GM EV programs. In addition to her day job, Jessica has been an active member in both Society of Women Engineers (SWE) and SAE International. Jessica holds a Bachelor of Science degree in Electrical Engineering from Michigan Tech, and a Master of Science in Information Technology degree in Software Engineering from Carnegie Mellon.
