

## Student Engineer Day

Tuesday, May 22, 2012

Student Engineer Day is organized by the SAE Detroit Section to provide students the opportunity to spend a “real world” day with a practicing engineer in the student’s field of choice. This event provides the student with insight into the engineering field and provides companies with insight into potential engineering talent.

It is very important to the success of this program that students realize the importance of being punctual, courteous and enthusiastic.

**Prior to completing the registration form, please read the following:**

- **Collegiate participants must be SAE student members.** For information on membership, contact SAE International at 1-877-606-7323 or visit [www.sae.org](http://www.sae.org).
- Registration deadline is **Tuesday, May 8, 2012**
- You will be notified a week prior to the event with respect to company placement along with your engineer's name, e-mail, address and phone number. For security purposes, you may need a driver’s license or photo identification to enter the facility.
- It is **your** responsibility to contact the engineer immediately upon receipt of the information to confirm his/her participation. Talk to your engineer about proper attire, hours you will spend together, directions to the facility, and lunch arrangements.
- Compliments of the Lewis E. Fleuelling Student Fund, you and your engineer are invited to attend the SAE Detroit Section Ford Escape Vehicle Event that evening at the Ford Conference & Event Center in Dearborn. To reserve tickets, contact Lynn Norwood at (248) 324-4445 ext. 5 or [lnorwood@sae-detroit.org](mailto:lnorwood@sae-detroit.org) by Tuesday, May 8, 2012. Seating is limited.
- If you are unable to participate at the last minute due to a situation beyond your control, it is **your** responsibility to notify the engineer and the SAE Detroit Section office. If possible, please find a replacement as the engineer often blocks off the day and arranges for other colleagues to spend time with you. Students that do not notify the engineer will not be invited to future Student Engineer Day activities.

For questions, contact Lynn Norwood at (248) 324-4445 ext. 5 or [lnorwood@sae-detroit.org](mailto:lnorwood@sae-detroit.org).

Visit [www.sae-detroit.org](http://www.sae-detroit.org) for all SAE Detroit Section student activities.
